THE SATISFACTION OF WELL
FENCED HOME PROPERTY IS
A PLEASURE WHICH EVERY MAN
SHOULD HAVE.

THE ADAPTABILITY OF THIS EX-
CLUSIVE PAGE-CLIPPER DESIGN
IS EVIDENT IN THE ABOVE ILLU-
STRATION.

THE ready adaptability of wire fabric fences for lawns, gardens and park enclosures, and the moderate prices at which they may be purchased are the secrets of their great popularity.

The essential feature next to utility, in purchasing wire fabric fence, is length of life. No one wants to erect a fence that will be entirely eaten away by rust in a year's time. Page fabric overcomes this greatest of wire fencing faults in three ways:

By being constructed entirely of Page wire, which is, by actual test, more than twice as strong as common fence wire.

By extra heavy, hot galvanizing.

By a dip coat of heavy enamel (white or green) after the fabric is rolled.

All the fences shown on the following pages may be set on pipe posts which can be furnished with or without a pipe top-rail.

PLATE No. 542

Page-Economy Fence

THIS DESIGN adapts itself readily to extreme heights for use as park enclosures and general property protection. With bracing arms, on which are stretched barbed wires, it offers an unclimbable barrier against intrusion. More detailed information regarding this feature will be mailed on request.

Page-Economy Fabric

Cables—2 No. 12½ Wires

Pickets—1 No. 9 Wire

Price List per Foot

PLATE No. 543

Height of Fabric	Pickets 1½"	Pickets 2¼"	Pickets 3"
30 inches.....	\$.27	\$.18	\$.16
36 inches.....	.30	.20	.18
42 inches.....	.33	.22	.20
48 inches.....	.37	.25	.22
54 inches.....	.42	.28	.25

60 in.....	3.80	4.10	4.30	5.08	5.86

Gates for wider openings can be furnished.

Add price of two single gates for price of double gate.

Always specify whether gates will be hung on steel or wooden posts.

Prices include hinges and latch.

Unless otherwise specified, all gates will be furnished plain galvanized.

All prices f. o. b. Factory.

Always order by plate number.

PLATE No. 545

J. W. P. Lawn Fence

THE J. W. P. Lawn Fence combines the beauty of a crimped picket and curved top with a close mesh at the bottom, thus providing a satisfactory fence for keeping small animals within bounds and yet offering a design which will make the lawn or garden more attractive.

Note that this fence has a smooth selvage—there are no raw ends at the bottom to catch the clothing of passers-by.

Prices include hinges and latch.

Unless otherwise specified all gates will be furnished plain galvanized.

All prices f. o. b. Factory.

Always order by plate number.

PLATE No. 548

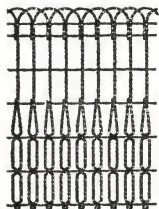

Page-Clipper Fence

PAGE-CLIPPER fence is positively dog, cat, and chicken proof, by reason of the special shape of pickets which make an even narrow spacing at the bottom. No other fabric fence on the market can compete with Clipper in this exclusive Page feature.

The same crimped and cabled Page wire is used, the same selvage edge at the bottom and the same high grade workmanship is put into this pattern as in all other Page fences.

Always specify whether gates will be hung on steel or wooden posts.
Prices include hinges and latch.
Unless otherwise specified all gates will be furnished plain galvanized.
All prices f. o. b. Factory.

Always order by plate number.

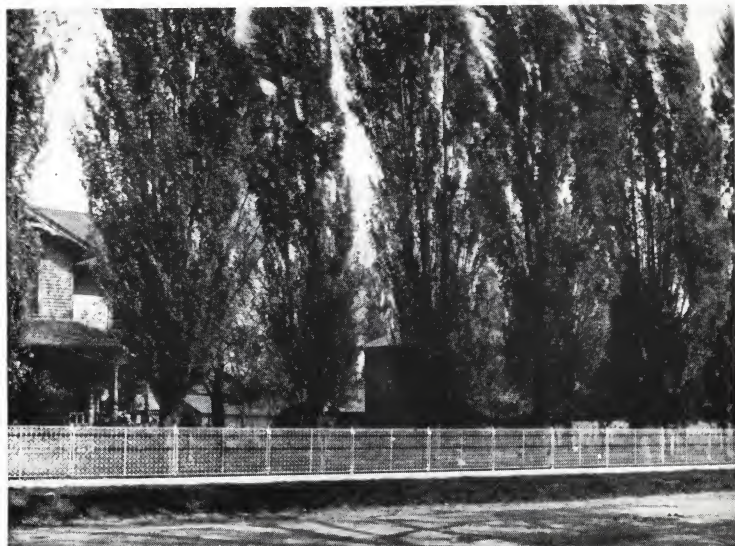

PLATE No. 5411

Page-Panel Lawn Fence

PAGE-PANEL Lawn fence is made in panels 6 to 8 feet long (other lengths when desired); the frames are solid wrought iron, electrically welded and the mesh is hand woven of hot galvanized Page wire, a combination which is guaranteed to withstand the most severe test to which lawn fences may be put. The posts are attached to cast iron bases, which years of test have proven to be positively non-rusting at the ground line.

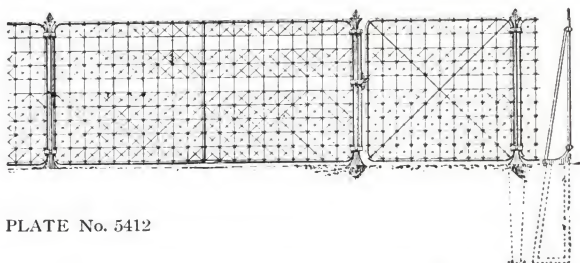

PLATE No. 5412

Price per foot, including posts and all necessary fastenings and trimmings:

36 inches high	\$.60	48 inches high	\$.75
42 " " " " " " " "	.70	50 " " " " " " " "	1.00

Gates are listed at the same price as fence, plus \$1.00 for single and \$2.00 for double gates. All prices f. o. b. Factory.

Always order by plate number.

PLATE No. 5413

Tennis Court Enclosures

TO MAKE the game a real pleasure every tennis court should be fitted with some adequate enclosure or back-stop. Page Chain Link Back-stops are permanent, efficient and attractive.

The superior tight weave of Page Chain Link Fabric makes overstretching unnecessary and thus insures absolutely permanent position for the Tubular Steel Posts and Top-Rails on which the fabric is hung.

Price List of Chain Link Tennis Court Enclosures

Height 10 feet.

Price per lineal foot, including line posts, top-rails and all necessary fittings. (End, corner, gate posts and gates not included.)	1 $\frac{3}{4}$ " mesh, No. 14 Wire,.....	\$1.30
Price of gates per lineal foot.....		4.00
End, corner and gate posts, including braces, (each).....		4.50

All posts tubular steel, 2 $\frac{3}{8}$ ", O.D. Top-rails tubular steel, 1 $\frac{3}{8}$ ", O.D.

Posts are spaced 8 feet on centers.

Fabric is woven full 10 feet in width, and with lacing wires, is constructed of Page-made hot galvanized wire. All other parts are given one dip coat, inside and out, of special rust-proof black paint.

Posts, top-rails and all other fittings can be furnished plain galvanized if desired at a slight increase in price. All posts are fitted with Page special damp-proof caps.

Always order by plate number.

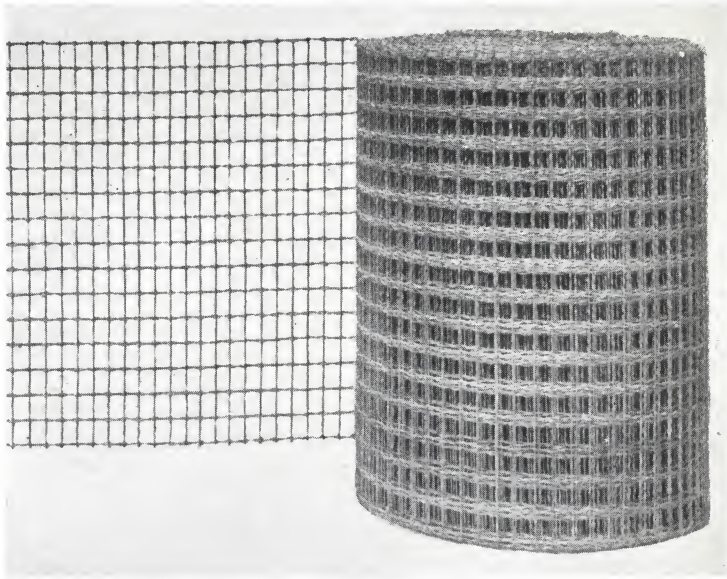

PLATE No. 5414

Page-Utility Fabric

HAVE YOU ever realized the large number of uses to which a close mesh, heavy wire fabric may be put? The corn crib is one of these. Portable corn cribs are very convenient, and in some sections are a necessity. No fabric ever made equals Page-Utility for this purpose. It goes up like a board, and is so well made that it can be used year after year.

Used For

Cages
Fruit Bins
Corn Cribs
Tree Guards
Chicken Pens
Tennis Courts
Window Guards
Screens for Ball Parks
Store Room Partitions

Specifications

Mesh— $1\frac{1}{2} \times 2\frac{1}{4}$ inches.
Rolls—Standard, 200 lineal feet.
Wires—No. 12 $\frac{1}{2}$ longitudinals.
—No. 11 crimped transverse.
Width—Standard, 48 inches.

Special widths will be made from 3 feet to 6 feet on orders of sufficient size to pay for changes in the looms.

Price, per square foot \$.08

Always order by plate number.

PLATE No. 5415

Page - Handy Panels

YOU WILL find new uses as you get acquainted with these panels and they will be the busiest things on the farm. When you want a small pen and want it in a hurry Page handy panels can be coupled together in less time than it takes to get hammer and saw. They are light to handle, take up little room in storage, easy to set up and stout enough for moose.

The mesh is five inches square and is hand woven of hot galvanized Page wire on wrought iron frames electrically welded at the joints.

Used For

Hen with Chicks Sow with Pigs
The Young Calf Ducklings
Ewe with Lambs Goslings

Price, per panel,\$1.00

Corner Clips, per set,15

All prices f. o. b. Factory.

Always order by plate number.

Flower Guard

Price Per Foot

Height When Set	Mesh 3"	Mesh 2¼"	Mesh 1½"
12 in.	\$.10..	\$.12..	\$.18
18 in.	.12..	.14..	.21
24 in.	.15..	.16..	.24

An extra four inches on bottom of pickets is allowed for setting.

PLATE No. 5416

Page Flower Guard and Vine Trellis

THE FLOWER GUARD and vine trellis shown on this page are both easily cut to any length without waste and are cheap insurance against damage to plants and vines. The Flower guard is constructed of No. 9 crimped wire and No. 12½ cabled wires, the vine trellis of No. 12 wire. Shipped in rolls of 200 feet or less if desired.

PLATE No. 5417

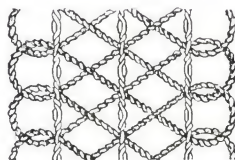

PLATE No. 5418

Vine Trellis

Price..... 10c per foot

Write for details regarding other styles of wire trellis.

Always order by plate number.

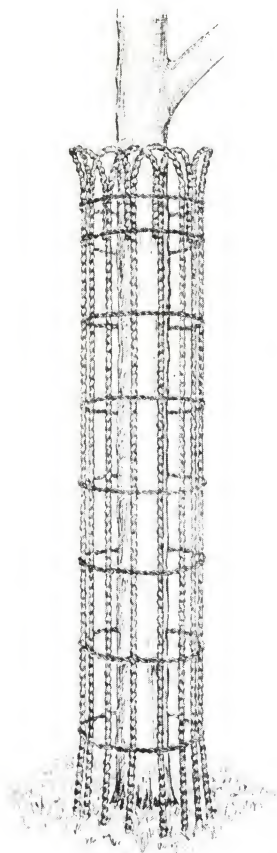

PLATE No. 5419

Page - Rubbish Burner

THE RUBBISH BURNER of No. 9 wire fills a long felt want, for it is actually a danger to burn papers and rubbish in a wind without some container. This burner can be placed in the rear entry and when filled carried to any open space.

Price..... \$1.00

PLATE No. 5420

Page-Tree Guards

THESE tree guards are made of No. 9 uprights, spaced 2 inches on centers and No. 12½ cabled horizontals.
